BURBANK, CA – OCTOBER 8, 2015 – Cast & Crew Open Health today was named a Finalist in the Best New Product or Service of the Year category in the 12th annual Stevie® Awards for Women in Business.

The Stevie Awards for Women in Business honor women executives, entrepreneurs, employees and the companies they run – worldwide. The Stevie Awards have been hailed as the world’s premier business awards.

Cast & Crew Open Health is a unique Affordable Care Act-compliant health care insurance offering especially designed for the Entertainment Industry, providing a unique solution not available elsewhere. As the first-and-only Entertainment Industry-wide, multiple-employer healthcare plan designed for non-union employees, Open Health is an innovative and affordable industry solution that is decreasing the amount of uninsured employees in the industry.

Cast & Crew Open Health is led by Shardell Cavaliere, President of Cast & Crew Life Services. Cavaliere has been an influential member of the Cast & Crew team since 1986, and developed Cast & Crew Open Health as an innovative industry solution to help those in the entertainment business comply with Affordable Care Act regulations. In addition to overseeing Open Health Cavaliere continues to blaze the trail, developing the first work-life balance suite of products designed specifically for Entertainment Industry personnel that is expected to launch later this year.

“We are proud of what Shardell has accomplished with Cast & Crew Open Health,” said Eric Belcher, CEO and President of Cast & Crew. “In just over a year, we have brought on more than 9,000 participants and are proud to be part of this unique solution to ensuring every employee in the Entertainment Industry has access to affordable health coverage.”

“I am thrilled that Cast & Crew Open Health is being honored with such an outstanding achievement,” said Cavaliere. “In addition to our work with Open Health, the specific title of the award holds great meaning for me as two-thirds of our executive management team is made up of women – a statistic of which we are very proud – and it’s tremendous to be recognized among the other women and companies represented today.”
