Cast & Crew is continually adding new jurisdictions to the TIP Guide. This edition includes a summary of the following incentive programs: Jacksonville, FL, New Jersey, Malta, and Georgia (international).

Production incentives play an important role in determining the location where motion pictures and television productions are produced. Cast & Crew's Production Incentives Department, led by Joe Bessacini, has long-standing relationships with individuals in local film commissions and taxation/revenue departments. We are here to keep our clients informed of the ever-changing rules and requirements, so they can maximize the cost savings on their productions.

This guide will familiarize you with domestic and international production incentives. For up-to-date detailed information regarding a specific incentive, contact Joe Bessacini directly at (818) 480-4427 or via email at joe.bessacini@castandcrew.com. You can also find our Multi-Jurisdiction

Comparison Tool at www.castandcrew.com, where you can compare up to six jurisdictions side-by-side. Our website is always up-to-date.

WHICH INCENTIVE IS BEST?

Assuming the script lends itself to numerous locations, the answer will vary depending on the specifics of the particular project. Some jurisdictions limit or cap the amount of eligible salary for each individual or only allow the

salary of residents to qualify. If the project is running up against a salary cap, an alternative jurisdiction without a salary cap may yield a better result for the project, even if the incentive percentage is smaller.

The depth of the qualified crew base will also have an impact on the project's budget. If the crew base in the jurisdiction cannot support more than one project at a time, the project will most likely incur additional transportation and per diem costs to bring in the required crew. These costs will increase the budget and, depending on the jurisdiction, may or may not be considered qualified costs for the incentive.

When comparing a jurisdiction with a refundable tax credit or rebate to a jurisdiction with a transferable tax credit, it is imperative that the budget allow for the discounted value of the transferable credit, as well as the cost to transfer the credit. Credits may sell for a higher dollar value during tax filing season. The economics of supply and demand apply to production incentive tax credits too!

Most importantly, you need to stay current with production incentives. A jurisdiction with a new incentive program may offer a more lucrative incentive to attract business, while last year's front runner may have put a cap on their program.

TYPES OF INCENTIVES

Aside from sales tax exemptions/refunds and hotel tax relief, there are basically two types of motion picture production incentives: rebates or grants, and tax credits.

REBATES OR GRANTS

Rebate programs, sometimes referred to as grants, operate in a similar manner; both return a cash payment to the eligible production company after all of the requirements of the program have been met. This type of incentive is not tied to filing an income tax return. Rebates or grant programs are offered in the following jurisdictions: **Alberta (Canada), Arkansas, Australia (Location Incentive), Colombia, Colorado, Croatia, Czech Republic, District of Columbia, Georgia (Int'l), Germany, Hungary, Iceland, Idaho (not currently funded), Jacksonville (Florida), Jefferson Parish (Louisiana), Kansas City (Missouri), Maine, Malaysia, Malta, Miami-Dade County (Florida), Minnesota, Mississippi, Montana, New Brunswick (Canada), New Zealand, North Carolina, Northwest Territories (Canada), Nova Scotia (Canada), Oklahoma, Oregon, San Antonio (Texas), San Francisco (California), Santa Clarita (California), Sarasota County (Florida), Saskatchewan (Canada), Savannah (Georgia), Shreveport (Louisiana), South Africa, South Carolina, South Korea, St. Bernard Parish (Louisiana), Tennessee, Texas, US Virgin Islands, Utah, Virginia, Washington, and Yukon (Canada).**

TAX CREDITS

Tax credit programs provide the production company with one of several different types of tax credits or a combination thereof: refundable/nonrefundable, and/or transferable/nontransferable.

Refundable – If the jurisdiction offers a refundable tax credit, as do the incentive programs in **Alabama, Australia, British Columbia (Canada), Canada (Federal), France, Hawaii, Manitoba (Canada), Maryland, Massachusetts, New Mexico, New York, Newfoundland & Labrador (Canada), Ohio, Ontario (Canada), Québec (Canada), United Kingdom, Utah, and Virginia**, the production company must generally file the appropriate tax return claiming the tax credit and, to the extent the production tax credit exceeds the company's tax liability, a refund will be issued. Generally, states offering a refundable tax credit do not allow the credit to be transferred.

Transferable – The following jurisdictions offer transferable tax credits: **California (indies only), Connecticut, Dominican Republic, Georgia, Illinois, Louisiana (only to the state), Massachusetts, Nevada, New Jersey, New Mexico, Ohio, Pennsylvania, Rhode Island, and US Virgin Islands**. Generally, transferable credits may be sold, assigned, or transferred to a taxpayer or group of taxpayers that have a tax liability in the jurisdiction. Some jurisdictions allow unlimited transfers to multiple transferees, while others may restrict the number of transfers and the number of transferees that may participate in the transfer. In all cases, a transfer does not extend the

carryforward period in which the credit must be used. In order to monetize a transferable tax credit, the production company must either: (1) apply the credit against its existing tax liability, if any, in that jurisdiction or (2) have the ability to transfer/sell/assign the credit to a taxpayer that has a tax liability in that jurisdiction.

Nontransferable/Nonrefundable – The following programs provide for a tax credit that is nontransferable and nonrefundable: **California (non-indies), Kentucky, Italy, and Maine (spend only)**. In these instances, the only way to receive a benefit for the tax credit earned is to use the credit against an existing tax liability.

QUALIFYING PRODUCTIONS

Each jurisdiction defines the type of production which will qualify for the incentive. Generally, the following types of productions DO qualify for production incentives: motion pictures, series, pilots, TV mini-series, movies for television, and documentaries. Some jurisdictions also treat commercials, game shows, infomercials, interactive entertainment, music videos, reality shows, and talk shows as qualifying productions. The following types of productions, generally, DO NOT qualify for production incentives: any ongoing television program created primarily as news, weather, or financial market reports; a production featuring current events; sporting events; an awards show or other gala presentation; a production whose sole purpose

is fundraising; and, obscene material or performances. Please see Projects At-A-Glance for a list of qualifying projects for each jurisdiction. PRIOR to incurring any expense, check with the local film commission to determine if your project will qualify.

QUALIFYING EXPENDITURES

Generally, if incurred within a jurisdiction offering an incentive, expenditures related to the following categories will qualify: set construction and operation; wardrobes, make-up, accessories, and related services; photography and sound synchronization; lighting and related services and materials; editing and related services and materials; rental of facilities and equipment; leasing of vehicles; food and lodging; digital or tape editing, film processing, transfer of film to tape or digital format, sound mixing, computer graphics services; special and visual effects; airfare, if purchased through an in-state based travel agency or travel company; insurance and bonding, if purchased through an in-state insurance company; and, other direct costs of producing the project in accordance with generally accepted entertainment industry practices. Generally, expenditures for marketing and distribution do not qualify; however, these costs do qualify in some jurisdictions.

Travel – Each jurisdiction handles travel costs differently. Generally, travel purchased through an in-state broker will qualify; however, the qualifying amount of travel costs may vary from jurisdiction-to-jurisdiction. Some may

allow all travel costs as long as one leg of the trip originates or ends in that jurisdiction, while others may allow travel into but not out of that jurisdiction, still, others may only allow intra-state travel.

Insurance and Bonding Costs – Some jurisdictions do not consider these costs to be direct production expenditures and therefore, in those instances, the costs do not qualify. Most jurisdictions which consider these costs as qualified costs require the insurance to be purchased from an in-state broker.

Box Rental or Tool Allowance – Generally, if an inventory listing of the items being rented is provided, the payment will be reported as rental income on Form 1099. If an inventory list is not provided, the tool allowance is subject to income tax withholding and all employment taxes and is reported in Box 1 of Form W-2. Some states require income tax withholding on box rentals in order for the expense to qualify.

Meal & Incidental Per Diems – Each year, the United States General Service Administration releases the new government per diem rates in effect beginning on October 31st. The dollar amount reflected in this table for each jurisdiction represents the nontaxable or “deemed substantiated” portion of the per diem. For any domestic city not specifically listed in the chart, the default amount for meals and incidentals is \$51 per day. The nontaxable per diems for domestic and foreign locations may be found at: www.gsa.gov. If the meal per diem paid is in excess of the government “deemed substantiated” amount, then the excess is subject to income tax withholding

and all applicable employment taxes. This excess amount is reported in Box 1 and the nontaxable portion is reported in Box 12 of Form W-2. Each state defines qualifying costs with respect to per diems differently. Some states qualify only the portion that appears in Box 1 as taxable wages.

Always check the legislation, regulations, rules, guidelines, or frequently asked questions pertaining to each jurisdiction for the most up-to-date information.

⁽¹⁾ Only the first \$20 million of Alabama expenditures may qualify for the incentive. ⁽²⁾ The Department of Revenue is in the process of creating a form whereby the loan out will acknowledge their Alabama tax responsibility. As a result, the 5% withholding requirement is not being enforced.

REQUIREMENTS: No later than 30 days PRIOR to the start of any activities in Alabama, submit an application to the film office; meet the minimum in-state spending requirement of at least \$500,000; and, **begin principal photography (anywhere) within 90 days of application approval.** Approved projects must show evidence of financial backing and funding.

QUALIFIED SPEND: Qualified spend includes: preproduction, production, and postproduction costs incurred in the state that are directly used in a certified production; all salaries, wages, and other compensation including, but not limited to, compensation and related benefits provided to resident and nonresident producers, directors, writers, actors, and other personnel involved in certified projects within the state. **Marketing and distribution expenses do not qualify.**

SUMMARY: This program is not administered on a first-come, first-served basis. The film office retains the sole discretion to determine which projects are selected and the amount of incentives available to each selected project. **While there is not a per project incentive cap per se, Alabama only awards the incentive on the first \$20 million of qualifying production expenditures.** Subject to the \$20 million limitation, all payroll paid to Alabama residents will

earn 35%, while all other qualified production expenditures earn 25%, including the first \$500,000 of each nonresident below-the-line (direct hire or loan out) and the first \$1 million of each nonresident above-the-line (direct hire or loan out). There is a state funding cap of \$20 million per fiscal year (Oct. 1 – Sept. 30). A certified production spending at least \$150,000 within a 12-month period may apply to be exempted from the state portion but not the local portion of sales, use, and lodging taxes. The sales tax exemption is not available on qualified expenditures in excess of the first \$20 million.

Production companies may earn an additional 5% of ALL base investment by meeting certain out-of-zone filming requirements. Productions based on a screenplay created by a Louisiana resident may yield another 10% increase in the base investment rate for certified expenditures of at least \$50,000 but not greater than \$5 million. Visual effects expenditures may earn another 5% if certain requirements are met. **The maximum aggregate base investment rate is limited to 40%.** DED now engages and assigns a CPA to prepare a production expenditure verification report. There is a per project cap of \$20 million for a single state-certified production or \$25 million per season for scripted episodic content. DED, at its discretion, may structure incentive payouts over two or more years. The maximum amount of tax credits issued by the film office for all applications received on or after July 1, 2017 is limited to \$150 million per fiscal year. This program is scheduled to sunset June 30, 2025. Please refer to governing statutes for more details.

⁽¹⁾ May elect to receive a refund from the state equal to 90% of the face value of the credit earned or sell the credit to another taxpayer. ⁽²⁾ If a production doesn't meet one of the requirements to include spend in the incentive calculation (see below), then only the first one million paid to each worker will be eligible for the incentive. If a production does meet one of the requirements to include spend in the incentive calculation, then the entire amount paid to each worker shall be included in the calculation, without limitation. ⁽³⁾ Film credit applications with \$250,000 or more of qualified expenditures must include an audit.

REQUIREMENTS: Register the production company with the Massachusetts Secretary of State's office and the Department of Revenue; meet the minimum qualified spending requirement of \$50,000 within a 12-month period for the preproduction, production, and postproduction of a qualified production; and, submit a 940 Certification, dated no more than ninety days prior to the date being furnished to the Department of Revenue, confirming payment of the requisite unemployment taxes. **In order to include spend and all payroll, without limitation, in the incentive calculation, the in-state production expenses must exceed 50% of the total production expenses or at least 50% of the total principal photography days must take place in Massachusetts.**

QUALIFIED SPEND: Qualified spend includes: resident and nonresident labor sourced to Massachusetts; all direct production expenditures incurred in Massachusetts; and, goods acquired from out-of-state vendors and used in Massachusetts. If a production meets the 50% spend test and/or the 50% principal photography test and an individual earns more than \$1 million then, technically, none of the salary of those persons earning more than \$1 million

is included in the payroll credit but instead 100% of those salaries is included in the 25% production spend credit. **Salaries, wages, and all payments made to loan out companies must reflect Massachusetts withholding tax in order to qualify.** Withholding at the rate of 5.1% is required on all payments made to a loan out company.

SUMMARY: This program is administered on a first-come, first-served basis. Massachusetts offers a unique incentive in that you can elect to claim the credits as either a refundable tax credit equal to 90% of the face value (guaranteed) or sell them at the market rate to a third party. A taxpayer that elects to receive a refund of the credit from the state must file an electronic tax return for the tax period at issue. The Commissioner will apply the credit against the taxpayer's liability as reported on its tax return and then refund 90% of the balance of the credits to the taxpayer. **Productions should secure the required information and signatures needed to complete the Loan Out Affidavit sooner rather than later in the production process.**

This incentive program is scheduled to sunset on December 31, 2022.

REQUIREMENTS: Submit an application; provide satisfactory proof that 70% or more of the funding for the production has been obtained; if approved, begin principal photography within 90 days after the approval date; **incur at least 60% of the direct production expenditures related to preproduction, production, and postproduction (if postproduction will take place in-state) in Nevada;** meet the minimum in-state spending requirement of at least \$500,000; complete the production within eighteen months from the start of principal photography; and, submit an audited report of qualified direct production expenditures no later than 90 days after completion of principal photography, or if any direct production expenditures for postproduction are incurred in Nevada, not later than 90 days after the completion of postproduction.

QUALIFIED SPEND: Qualified expenditures and production costs include, but are not limited to, purchases of tangible personal property or services from a Nevada business on or after the date the application was submitted for the tax credit; and, **the first \$750,000 of wages or salaries (including fringe benefits) of each resident and above-the-line nonresident providing services in Nevada.** The compensation paid to all Nevada resident producers

must not exceed 10% (5% for all nonresident producers) of the total expenditures incurred in Nevada.

SUMMARY: This program is not administered on a first-come, first-served basis. The Office of Economic Development has discretion to decide if the production is in the best economic interest of the state. **A production company may earn a transferable tax credit equal to 15% of the qualified direct production expenditures (including resident labor costs) plus an additional 5% of the qualified direct production expenditures (including resident labor costs) for each of the following requirements met, up to a maximum of 25%:** 1) more than 50% of the below-the-line personnel (excluding extras) are Nevada residents; 2) more than 50% of the filming days occur in a county within the state in which, in each of the two years immediately preceding the date of application, qualified productions incurred less than \$10 million of qualified direct production expenditures. Qualified salaries and wages paid to nonresident above-the-line personnel will earn a 12% tax credit. The maximum tax credit a project may earn is capped at \$6 million.

REQUIREMENTS: Be an eligible project intended for a national or regional audience with a runtime of at least 22 minutes; apply to the New Jersey Economic Development Authority; **BEGIN principal photography within 180 days from the date of the original application, or 150 days from the approval date of the application;** incur at least 60% of the total film production expenses (exclusive of postproduction costs) for services performed and goods purchased through vendors authorized to do business in New Jersey, or spend more than \$1 million per production in qualified expenditures; and, submit a tax credit verification report prepared by an independent certified public accountant licensed in New Jersey. ⁽¹⁾ Credits of \$2 million or more may be paid out in equal installments over 12 or 24 months. ⁽²⁾ \$50,000 per episode (min 6 EPS) for series applying for additional 5%. ⁽³⁾ A maximum credit of \$5 million per project may be earned for payments made to nonresident and featured resident principal performing artists. ⁽⁴⁾ Only when claims exceed \$5 million.

REQUIREMENTS: Submit all registration forms at least three weeks PRIOR to the start of principal photography (PP) in New Mexico; pay all obligations incurred in New Mexico (NM); and, submit the final application within one year from the last qualifying production expenditure incurred in NM during the production company's tax year. Refunds are issued based on a first-come, first-served basis.

QUALIFIED SPEND: Qualified spend includes: all direct production and postproduction expenditures made in NM that are subject to taxation in NM; wages and fringe benefits for a defined number (based on size of NM budget) of certain nonresident crew; wages and per diems of "direct hire" nonresident performing artists; and, payments to a personal services business for the services of nonresident performing artists if gross receipts tax (GRT), generally at the rate of 5.125%, is paid on the portion of those payments qualifying for the tax credit and 4.9% New Mexico income tax is withheld or paid. **The CREDIT that may be earned on the services of all on-camera talent (excluding extras and resident performing artists in non-lead roles) is capped at \$5 million in the aggregate.** Nonresident performing artists engaged as "direct hires" are not required to be processed through a super loan out, however, 4.9% personal income tax must be withheld or paid to qualify their wages.

SUMMARY: The base incentive is a refundable tax credit equal to 25% of qualified spend, resident labor, and payments to nonresident performing artists; and, 15% on the wages and fringes for a defined number of certain nonresident crew. **Standalone TV pilots are eligible for a 30% credit on direct production expenditures, excluding payments to nonresident performing artists (25%), when documentation is included showing the intention for the series to be produced in NM if "picked up."** TV series with an order for at least six episodes and a NM budget of \$50,000 or more per episode may earn 30% on all resident labor and other direct production expenditures; 15% on the defined number of nonresident below-the-line crew; and, 25% on nonresident on-camera talent. However, when the same (parent) company begins another TV series in NM within the same year, nonresident on-camera talent for both productions will earn 30%. Feature films, with a NM budget of less than \$30 million that shoot at least 10 PP days in NM (7 or more at a qualified production facility (QPF) with remaining days at a standing set) or, with a minimum NM budget of \$30 million that shoot at least 15 PP days in NM (10 or more at a QPF with the remaining days at a standing set) may earn 30% on NM resident labor. ⁽¹⁾ Additional 10% credit on qualified labor expenses incurred in certain counties (through 12/31/22), see below for details.

REQUIREMENTS: Apply PRIOR to the start of principal photography and start production within 180 days of submitting the application. **At least 10% of the total principal photography days of a qualified film must occur at an in-state qualified production facility (one day for an independent film with a budget less than \$15 million or a pilot).** Once the stage requirement is met, in order for costs related to location work, preproduction, and other work done in New York (outside the facility) to be eligible, either (1) at least 75% of any days shot on location outside the facility must be in New York State or (2) the production must spend at least \$3 million on work incurred at the qualified production facility. If a production shoots at any non-qualified production facility in addition to the qualified production facility, then at least 75% of the total facility related costs must be spent at the qualified facility.

QUALIFIED SPEND: Qualified spend includes direct production expenditures incurred in New York State during preproduction, production, and postproduction, including all below-the-line wages as well as wages for background talent.

SUMMARY: This program is administered on a first-come, first-served basis. In addition to the 30% film production incentive, a postproduction only incentive (PPO) is available to encourage projects

not shot in the state to do their postproduction in New York. Twenty-five million dollars is reserved each year, through 2022, for the PPO credit. **The PPO credit is equal to 30% of postproduction costs incurred within the Metropolitan Commuter Transportation District (MCTD) or 35% of postproduction costs incurred outside the MCTD.** The credit is available to productions whose qualified postproduction costs (excluding visual effects and animation costs) are at least 75% of all postproduction costs. Costs for visual effects and animation are treated separately from all other postproduction costs and there is a separate eligibility threshold. Visual effects and animation costs qualify for a credit if either 20% or \$3 million of all such costs are incurred in New York State. Production and postproduction costs for fully animated projects are eligible for the PPO credit. Film credits in excess of \$1 million but less than \$5 million will be paid out in equal installments over a two-year period, while credits of \$5 million or more will be paid out over a three-year period. The film production and PPO incentive programs also offer qualified productions, with minimum budgets over \$500,000, an additional 10% of below-the-line labor costs (not including wages of extras without spoken lines) for services performed in specified upstate counties. A production company may only apply for either the postproduction only program or the film production credit but not both.

⁽¹⁾ Where the credit reduces the applicant's liability to zero (or the minimum tax owed), only 50% of the excess credit is refundable in the current year. The remaining credit will be refunded in the following tax year.

REQUIREMENTS: Be a qualified commercial production company (QCPC) exercising control over all relevant phases of production; incur at least 75% of the production costs (excluding post production costs) within New York State; meet the minimum spending requirements of over \$500,000 (Downstate Credit) or over \$100,000 (Upstate Credit); and, **file an application by April 1 of the year following that in which the costs were incurred.** Eligible projects must be recorded for distribution via radio, TV, cable, satellite, or cinema and, unless specifically authorized, cannot exceed 180 seconds in length.

QUALIFIED SPEND: Qualified production costs are expenditures incurred directly in New York State for general preproduction, production, and post production costs, and include most below-the-line costs, such as costs for technical and crew production, use of commercial production facilities and/or locations costs, props, make-up, wardrobe, etc. **Costs for the story, script, and compensation for writers, directors, music directors, producers, and performers, excluding background actors and musicians, are specifically excluded from the definition of qualified costs.**

SUMMARY: This program is not administered on a first-come, first-served basis. A credit equal to 5% of the qualified costs exceeding the respective minimum spend requirement is available for filming in Downstate areas within the Metropolitan Commuter Transportation District (MCTD) ("Downstate Credit") and in Upstate areas located outside the MCTD ("Upstate Credit"). The Growth Credit provides for a credit equal to 20% of the increase in similar costs from the prior year to the current year, up to an annual maximum credit of \$300,000. **To qualify for the Growth Credit, the QCPC will need to demonstrate that the total of all qualified costs for qualifying commercials produced during the current year was greater than the average of similar costs incurred in the three preceding years.** Applicable costs may be eligible for the Growth Credit and the Upstate/Downstate credits. Annual funding is allocated across the three credits as follows: Downstate (\$3 million), Upstate (\$3 million), and Growth (\$1 million). Credits are distributed on a pro-rata basis among applicants for each respective credit. Any unassigned funds remaining after apportionment of the Upstate Credit may be distributed among the Growth Credit applicants. At the time of publication, legislation was being discussed to extend the sunset date.

REQUIREMENTS: For the OPIF rebate, register to do business with the Secretary of State; submit an application PRIOR to the start of production in Oregon; enter into a contract with the Oregon Film & Video Office; and, meet the minimum in-state spending requirement of at least \$1 million for any single project or season of a TV series. Any costs incurred prior to submitting the application are ineligible. For the GOLR program, submit an application within 10 business days of the start of preproduction in Oregon; and, show that the production company will incur at least \$1 million of qualified expenditures. Commercial companies may aggregate the cost of each production during the calendar year to meet the minimum spend requirement of \$1 million for the GOLR program only. **Loan outs must be registered with the Secretary of State.**

QUALIFIED SPEND: Qualified spend consists of costs incurred during preproduction, production, and postproduction in Oregon including but not limited to: the purchase or rental of equipment; food and lodging; real property and permits; and, salaries, wages, benefits and

fees paid to each resident or nonresident individual or loan out company earning less than \$1 million for services provided in Oregon. **Costs incurred prior to the film office receiving the production's application will not qualify for the incentive.**

SUMMARY: This program is administered on a first-come, first-served basis. The OPIF program offers cash rebates of 20% on goods and services paid to Oregon registered companies and 10% of Oregon-based payroll. There is an additional “regional” incentive for productions shooting some of their schedule outside a 30-mile radius from the center of Burnside Bridge in Portland. The annual funding cap is \$14 million for each fiscal year (July 1 – June 30). The per project cap is equal to 50% of the annual funding. **The GOLR rebate program is essentially a refund of the Oregon income tax withheld on qualifying payroll (up to a maximum of 6.2%) and, as such, it is not capped.** The OPIF and GOLR programs are both scheduled to sunset December 31, 2023.

Payments made to an unregistered foreign loan out company owned by a South Carolina resident will not qualify for the incentive, even if 2% is withheld.

REQUIREMENTS: Apply and be approved PRIOR to the start of principal photography in South Carolina; start verifiable production activity within 60 calendar days from the date on the Qualifying Production Letter (QPL); register to transact business in South Carolina with the Secretary of State within 10 days of the date on the QPL; **start principal photography within 30 calendar days of the date specified in the QPL**; maintain a functioning South Carolina production office until the production's final Supplier Rebate request has been audited; and, meet the minimum in-state spending requirement of at least \$1 million in a single taxable year.

With the exception of scouting expenses, any

costs incurred prior to the date the production company agrees to the terms of the incentive offer are not eligible for the rebate.

SUMMARY: This program is not administered on a first-come, first-served basis. **Priority is given to productions that hold the most promise for benefiting South Carolina.** South Carolina offers a Supplier Rebate equal to 30% of production expenditures purchased from in-state vendors, and 25% of expenditures purchased from out-of-state vendors. Generally, a South Carolina vendor is an entity that has: a full-time employee; a physical location in the state; registered with the Secretary of State and Department of Revenue; and, an intent to be permanently domiciled in the state. In addition, a wage rebate of 25% and 20% is offered on the first \$1 million of wages paid to each resident and nonresident, respectively. A production company planning to spend \$250,000 in South Carolina within 12 consecutive months may receive an exemption from all sales, use, and accommodation taxes on goods and services purchased, leased, or rented for the production by the production company. REQUIREMENTS: Be a resident production company or a non-Virgin Islands entity licensed to do business in the USVI; submit a complete application, along with a nonrefundable application fee of \$500 to the Economic Development Authority, no earlier than 120 days before and no later than 30 days after the start of principal photography; **begin production activity no later than 90 days after approval**; meet the minimum qualified spend of \$250,000; see that a minimum of 20% of the workforce (including extras, day players, and up to three paid interns) are USVI residents; agree that a member of the executive production crew be available to speak to local schools where practicable; and, include a screen credit.

QUALIFIED SPEND: Qualified Production Expenditures (QPE) include costs for preproduction (including scouting activities) production, and postproduction incurred in the USVI which are directly used in a qualified production activity; **the first \$500,000 of each resident employee’s (or loan out’s) salary, wage, or other compensation, including related benefits;** airfare if purchased through a USVI based travel company; insurance costs and bonding fees

if purchased through an insurance agency licensed in the USVI; and, other direct costs of producing the project in accordance with generally accepted entertainment industry practices.

SUMMARY: This program is administered on a first-come, first-served basis. A qualified production company may access one or more of the incentives offered. The applicable percentage for the transferable tax credit incentive is based on the number of USVI residents that make up the workforce. Earn 10%, 15%, or 17% of the first \$500,000 paid to each USVI resident when the workforce is made up of 20% to 25%, 25.1% to 30%, or more than 30% of USVI residents, respectively. Additionally, a production company may earn a 9% rebate on Qualified Production Expenditures (which includes the first \$500,000 of each resident’s wage). **USVI offers a bonus equal to 10% of total QPE if an approved production includes a qualified USVI promotion PLUS another 10% of total QPE if the production activities take place in St. Croix.** Reduced hotel tax rates are also available based upon length of stay and amount spent in USVI.

⁽¹⁾ For nonresidents, only Utah withholding tax paid and the GSA per diem allowance is eligible for the incentive. ⁽²⁾ The program will be reviewed on or before October 1, 2020 and every three years thereafter.

REQUIREMENTS: Apply PRIOR to the start of principal photography in Utah; commence principal photography within 90 days of the date of application, demonstrate the project is 100% financed and there is a plan for distribution; meet the minimum in-state spending requirement of at least \$500,000; and, see that at least 75% of the cast and crew (excluding five principal cast and extras) are Utah residents. Productions spending \$1 million or more in-state may earn 20% without the cast and crew restriction. **There are two options available for a production to earn the additional 5% for a total of 25%.** Option 1: meet the minimum in-state spending requirement of at least \$1 million and see that at least 75% of the cast and crew (excluding five principal cast and extras) are Utah residents. Option 2: meet the minimum in-state spending requirement of \$1 million and see that at least 75% of the project dollars left in the state were spent in rural areas of Utah (which are counties other than Davis, Salt Lake, Utah, and Weber). Loan out companies must be registered with the Department of Commerce.

QUALIFIED SPEND: Qualified spend includes: expenditures made in Utah and subject to corporate, business income, franchise tax, or sales and use tax (notwithstanding any sales and use tax exemption allowed); salaries, wages, per diem (nonresident per diems above the

federal rate do not qualify), and fees paid to residents and loan out companies owned by a resident; and, the amount of Utah income tax withheld on payments made to a nonresident. **Payments to a loan out company owned by a nonresident do not qualify for the incentive.**

SUMMARY: This program is administered on a first-come, first-served basis. Utah offers a 20% fully refundable tax credit with the opportunity to earn an additional 5% tax credit subject to meeting certain requirements listed above. **Utah uses the term “dollars left in the state” to define qualifying expenditures.** As such, this term limits the amount that qualifies on payments made to nonresident workers to the income tax paid or withheld from such payments. While there is a state funding cap of \$6.79 million per fiscal year, there is not a limit on the tax credit that may be earned by a project, however, credits in excess of \$2 million may be paid out over multiple years (not to exceed three years). Any unused funds at the end of the fiscal year will roll over to the following year. Projects that spend \$500,000 to \$1 million and see that at least 75% of cast and crew are Utah residents (excluding extras and five principal cast members) may qualify for a 20% cash rebate. Utah also offers a low budget film production program for projects with a maximum budget of under \$500,000.

QUALIFIED SPEND: For both the tax credit and grant program, qualified spend includes: goods and services leased or purchased in Virginia from a Virginia vendor (**for goods with a purchase price of \$25,000 or more, the eligible amount is the purchase price less the fair market value at the time the production is completed**); and, the first \$1 million of salary paid to each resident or nonresident or their loan out company. For the grant program, certain negotiated deliverables can be considered for eligibility.

SUMMARY: This program is not administered on a first-come, first-served basis. Virginia offers a refundable tax credit equal to 15% or 20% of qualifying expenditures in Virginia including the first \$1 million of salary for each individual whether a resident or nonresident. An additional refundable credit equal to 10% of the total aggregate payroll for Virginia residents may be earned when total production costs in Virginia are at least \$250,000 but not more than \$1 million. This additional credit is increased to 20% of the aggregate payroll for Virginia residents when total production costs in Virginia exceed \$1 million. A production may also earn an additional 10% of payroll paid to Virginia residents employed for the first time as actors or crew members. If a production continues for more than one year, a separate application for each tax year the production continues must be submitted. **Virginia also offers a discretionary grant program, an exemption from the state sales & use tax, currently 5.3%, and a state lodging tax exemption on hotel or motel stays after 90 consecutive days.**

⁽¹⁾ Producer Offset (PO) is equal to 40% of Qualifying Australian Production Expenditure (QAPE) for theatrical releases (20% for TV documentaries and series); Post, Digital & Video Offset (PDV) is equal to 30% of QAPE related to post, digital, and visual effects production; Location Offset (LO) is equal to 16.5% of QAPE. ⁽²⁾ AUD 500k (approximately USD 365,000) for feature films or AUD 1 million for TV series (plus a minimum QAPE per hour of AUD 500k) for the PO; AUD 500k for the PDV Offset; and, AUD 15 million for films or an average of AUD 1 million per hour for TV series for the LO. ⁽³⁾ See Qualified Spend section for nonresident labor requirement.

REQUIREMENTS: Generally, be a qualifying entity; obtain a certificate of eligibility; and, meet the minimum QAPE requirements. For the PO: demonstrate the project has Significant Australian Content (SAC); upon completion of the project, submit a final certificate application along with a DVD of the production and required documents; and, a TV series may earn the incentive on the first 65 commercial hours of content. **For the LO: complete the entire production for a TV series that is predominantly digital animation within 36 months; complete principal photography for a live action feature or TV series that is not predominantly animation within 12 months. For the LO and PDV:** submit a final certificate application once QAPE or QAPE related to PDV has ceased being incurred; and, within 30 days of the project's completion, submit a DVD of the production to the Minister.

QUALIFIED SPEND: QAPE includes costs incurred during all phases of production for goods and services provided in Australia. **To qualify wages for nonresident crew (not cast) as QAPE, the nonresident must have worked on the production in Australia for at least 14**

consecutive nights. Each visit is considered separate. For the PO, expenses incurred during principal photography in a foreign country will qualify (except for a TV pilot) if the payment was made to an Australian resident or business and the subject matter of the film reasonably requires the foreign location to be used in principal photography. Qualifying above-the-line costs are capped at 20% of the project's total production expenditure (excluding non-feature documentaries). The Goods and Services Tax (GST) does not qualify as QAPE.

SUMMARY: This program is administered on a first-come, first-served basis. **Projects accessing the PO or PDV program may not apply for the LO or LI (see next page for details).** The PDV offset is available to projects not filmed in Australia. Official co-productions are not subject to the SAC requirements. Upon final certification, the production company may claim the tax credit in the income tax year (7/1 – 6/30) in which the film was completed or when QAPE has stopped being incurred. Effective July 1, 2019, large budget international film and TV productions can access the Location Incentive Grant of 13.5% in addition to the Location Offset.

REQUIREMENTS: Be a Canadian or foreign-owned corporation, taxable in Canada; have a permanent establishment in Ontario; be primarily in the business of film/video production or production services; and, on or after the production's first day of principal photography in any location (OPSTC) and at the end of the corporation's taxation year for OCASE, submit an application for a Certificate of Eligibility online, along with the applicable administrative fee of 0.15% of eligible expenditures (minimum fee of CAD 500 and CAD 5,000 for OCASE and OPSTC, respectively, and maximum fee of CAD 10,000 (approximately USD 7,700) for OCASE and OPSTC). **For the OPSTC credit, own the production's copyright during the production period or have a direct contract with the copyright owner to provide production services to the eligible production;** and, see that at least 25% of the qualifying production expenditures claimed relate to salary and wages (including labor paid under an eligible service contract) paid to Ontario-based individuals. QUALIFIED SPEND: Qualified spend for the OPSTC includes eligible wages, eligible service contracts, and expenditures for eligible tangible property used in Ontario. **For the OPSTC credit, eligible expenditures must have been incurred from the period after the final script**

For both programs, the expenses must be: reasonable in the circumstances; directly related to the production or to the eligible computer animation and special effects activities; paid within 60 days after the applicable tax year end; and, paid to Ontario residents or companies (for OCASE only arm's length personal services corporations) for services provided in Ontario.

SUMMARY: This program is administered on a first-come, first-served basis. OPSTC is a refundable tax credit equal to 21.5% of all qualifying production expenditures incurred in Ontario. The OCASE credit is equal to 18% of eligible Ontario labor expenditures that are attributable to eligible computer animation and special effects activities performed in Ontario. **A producer can claim the OCASE tax credit and the OPSTC credit for a combined rate of 39.5% on qualifying labor** directly involved in a filmed scene that involves visual effects (e.g. blue or green screen shooting, plate shots, digital scanning or motion capture). OCASE is generally claimed on its own by a supplier/vendor if the production company contracted the supplier/vendor to perform the computer animation and special effects services. Neither program has a funding or per project tax credit cap.

⁽¹⁾ Earn a 20% rebate if shooting more than three days in South Korea and spending between 100 million South Korean Won (KRW) and KRW 2 billion or 25% if shooting more than ten days in South Korea and spending more than KRW 2 billion.

REQUIREMENTS: Applicant must be a corporation organized and registered in South Korea; submit a Provisional Application no earlier than 90 days and no later than 15 days PRIOR to the commencement of principal photography in South Korea; show that more than 80% of the production costs come from foreign capital; receive approval from the Review Committee based on established criteria; spend no less than KRW 100 million and shoot no less than three days in South Korea; and, submit the Final Application within 12 months of the Provisional Application submission; and, **submit other supporting documents within one month of completing production activities in South Korea.**

QUALIFIED SPEND: Qualified spend includes expenditures incurred (even if incurred prior to submitting the Provisional Application) **from three months prior to the start of principal photography in South Korea through postproduction;** goods and services provided by businesses in South Korea; services provided in South Korea by residents' subject to South Korean income tax withholding; and, travel to South Korea, if booked through a South Korean travel agent. Postproduction costs or labor costs of cast and crew are limited to 50% of the total Qualified Production Expenditures (QPE) and total costs for the main cast must not exceed 30%

of the total labor cost. Nonresident cast and crew per diem is not considered QPE.

SUMMARY: This program is not administered on a first-come, first-served basis. All applications are assessed by the Review Committee and, if approved, the production company and KOFIC will enter into an agreement. South Korea offers a cash rebate equal to 20% or 25% of QPE, depending on the amount of spend and the number of principal photography days in South Korea (see above). **The rebate is calculated net of VAT and is subject to taxation.** If principal photography does not commence within three months after entering into the agreement, KOFIC may cancel the agreement and corresponding grant. Applicants may request a one-time partial settlement of the grant before the production is completed by submitting required documents including a certificate of performance bond and an audited expenditure statement for the costs incurred to date. Upon review and approval of the final application (which must be accompanied by an audited financial expenditure statement), the KOFIC will transfer the approved amount to the applicant's South Korean bank account. While there is a per project incentive cap of KRW 1.5 billion (approximately USD 1,316,000), this may be increased for high-marketing value projects. There is no sunset date for this program.

⁽¹⁾ Certification as a British film is required when claiming points in Section C or D.

REQUIREMENTS: **PRIOR to the start of principal photography**, the Film Production Company (FPC) responsible for the entire production of the film must be taxable in the UK (shelf companies belonging to a non-UK parent company are eligible); the film must be intended for theatrical release; be certified as a British film by either: **(1) passing the cultural test with at least 18 out of 35 points or (2) qualify as an official co-production** (under the UK's bilateral co-production treaties or European Convention on Cinematic Co-Production); and, a minimum of 10% of the total (both UK and non-UK) core expenditure must be UK expenditures.

QUALIFIED SPEND: Core expenditure consists of expenditures incurred by a British FPC during preproduction, principal photography, and postproduction. It excludes any expenses incurred during distribution or other non-production related activities. Development costs are usually excluded, however, certain expenses like script costs may be prorated based on the percentage of the film shot in the UK. **Core expenditure eligible for Film Tax Relief (FTR) must be a UK expenditure (defined as an expenditure “used or consumed” in the UK).** When

determining whether an expense will qualify as a UK expenditure, it is important to look at where the good or service was “used or consumed” rather than where the good or service was purchased or contracted. For example, a pro-rata share of the expense of a script purchased in the United States by a British FPC and used during production in the UK will qualify as a UK core expenditure because it was “used or consumed” (during a qualifying phase of production) in the UK (England, Northern Ireland, Scotland or Wales), regardless of the fact that it was purchased in the United States.

SUMMARY: This program is administered on a first-come, first-served basis. The UK offers British FPCs Film Tax Relief equal to 25% of qualifying UK expenditures on qualifying British films intended for theatrical release. Tax relief is available for qualifying UK production expenditures up to a maximum of 80% of total core expenditure. **When properly structured, an FPC may be able to make interim claims throughout the course of production.** There is no per project cap on the amount which can be claimed.

⁽¹⁾ Minimum core expenditure of 1 million British Pound (GBP) (approximately USD 1.3 million) per broadcast hour (including internet). See details in Requirements section. ⁽²⁾ Certification as a British film is required when claiming points in Sections C or D.

REQUIREMENTS: PRIOR to the start of principal photography, the Television Production Company (TPC) responsible for the entire production of the high-end television project must be incorporated in the UK. High-end television projects must: be intended for broadcast (including internet broadcast); be certified as British by either: (1) passing the cultural test with at least 18 out of 35 points or (2) qualify as an official co-production; see that 10% or more of total core expenditure (both UK and non-UK) are UK expenditures; meet the minimum core expenditure requirement of GBP 1 million per broadcast hour; and, be more than 30 minutes in length, however individual episodes less than 30 minutes can qualify when commissioned together provided that the GBP 1 million per broadcast hour requirement is met.

QUALIFIED SPEND: Core expenditure consists of expenditures incurred by a British TPC during preproduction, principal photography, and postproduction. It excludes any expenses incurred during distribution or other non-production related activities. Development costs are usually excluded, however, certain expenses like script costs may be prorated based on the percentage of the film shot in the UK. Core expenditure eligible for High-End Television Tax

Relief must be a UK expenditure (defined as an expenditure “used or consumed” in the UK). **When determining whether an expense will qualify as a UK expenditure it is important to look at where the good or service was “used or consumed” rather than where the good or service was purchased or contracted.** For example, the expense of a car purchased in the United States by a British TPC that was used as a prop during principal photography in the UK will qualify as a UK core expenditure because the car was “used or consumed” (during a qualifying phase of production) in the UK (England, Northern Ireland, Scotland or Wales), regardless of the fact that it was purchased overseas.

SUMMARY: This program is administered on a first-come, first-served basis. The UK offers British TPCs High-End TV Tax Relief equal to 25% of qualifying UK expenditures on qualifying British television programs intended for broadcast. **Tax relief is available for qualifying UK production expenditures up to a maximum of 80% of total core expenditures.** When properly structured, a TPC may be able to make interim claims throughout the course of production. There are separate incentive programs for animation, kids’ television, and video game projects.
