

Notice to Employees

Remember: You must report all work-related injuries to your supervisor prior to seeking medical treatment (except in an emergency.) Your immediate supervisor will report the claim.

For life-threatening emergency situations, call 9-1-1. Go to the nearest emergency room or medical facility equipped to handle emergencies. A medical emergency is generally defined as a sudden and unforeseen injury or illness of such a nature that failure to get immediate medical care could be life threatening or include severe bleeding from any site, loss of consciousness, seizures, or severe or multiple injuries.

Cast & Crew utilizes a Medical Provider Network (MPN) in California for treatment of work-related injuries or illnesses. Thus, treatment is rendered by an employer-selected physician unless the employee properly pre-designated a “personal physician” in writing prior to the injury.

If you have questions about medical treatment or need help to locate a provider that best fits your needs, call the

Medical Provider Network Hotline
